this highly novel book provides an exploration of the role of silence in the school setting and interrogates the value of silence and quiet in contemporary educational practices looking at pedagogies and classroom practice to guide this increasingly popular subdiscipline of the history of education arguably the first contribution written in english on the educational value of silence within the history of education more broadly this book interrogates the way in which we encounter and label sounds and noises within the classroom and the ways in which these have come to dictate relationships between teachers and pupils in our contemporary society the chapters investigate sociocultural reasons for a western problematization of silence and shyness of children and the wider impact on class participation and treatment the issues around children's sense of identity and teachers authority are explored in relation to silence as a powerful tool for a progressive understanding of learning ultimately the book will guide thinking around

educational acoustic surroundings and provide alternative vocabulary to talk about educational soundscapes and the real term impact on our learning environments providing a novel and nuanced framework for studying schools as acoustic or sound spaces the book will be of interest to researchers scholars and academics in the fields of history of education curriculum studies and the theories of learning more broadly translated by emmeline burdett on the basis of the original dutch edition leuven university press 2022

like the biblical job many people suffer under the silence of god this book shows that it is enlightening to retrace the origins of the concept of divine speech and silence in the ancient near east and greece

in ancient greece the spoken word connoted power whether in the free speech accorded to citizens or in the voice of the poet whose song was thought to know no earthly bounds but how did silence fit into the mental framework of a society that valued speech so highly here silvia montiglio provides the first comprehensive investigation into silence as a distinctive and meaningful phenomenon in archaic and classical greece arguing that the notion of silence is not a universal given but is rather situated in a complex network of associations and values montiglio seeks to establish general principles for understanding silence through analyses of cultural practices including religion literature and law unlike the silence of a christian before an ineffable god which signifies the uselessness of words silence in greek religion paradoxically expresses the power of logos for example during prayer and sacrifice it serves as a shield against words that could offend the gods montiglio goes on to explore silence in the world of the epic hero where words are equated with action and their absence signals paralysis or tension in power relationships her other examples include oratory a practice in which citizens must balance their words with silence in very complex ways in order to show that they do not abuse their right to speak inquiries into lyric poetry drama medical writings and historiography round out this unprecedented study revealing silence as a force in its own right

most people equate democracy with discussion speech and making one's voice heard but where does silence fit in democracy and the politics of silence investigates the largely overlooked role of silence in democratic politics it challenges conventional wisdom by arguing that silence can support and affirm democratic pillars and outcomes like empowerment inclusion and equality the book focuses on a particular set of problems concerning the relationship between political silence and the democratic triad of voice agency and representation each of the book's chapters draws on a selection of hand picked case studies both historical and contemporary including the naacp's silent parade in 1917 demonstrations by the women in black spain's post franco pact of forgetting trump's silent majority debates related to the representation of nonhuman beings and the famous miranda judgment on the right to silence together they offer an innovative ambitious investigation of democratically undesirable silences and practices of silence that are powerfully affirmative of democratic subjectivities aims and norms in thus expanding the repertoire of democratic citizenship mónica brito vieira invites readers to consider what silence might teach them about democracy this timely book should appeal to political science students and scholars as well as anyone interested in the history of democracies and popular resistance movements

this is the true life story of smokey king of the horse duffers one hundred years ago as the boer war came to an end the rugged kimberley range formed the roughest and most remote cattle country in australia it was five days hard ride from the nearest township of wyndham to smokey

s kimberley underworld hideout the police patrols sent out to arrest king smokey faced a daunting task the few passes through the forbidding king leopold ranges were guarded by fierce aboriginal warriors known as munjons the munjons waged a bitter war with the white stockmen but for every spearing of the cudeas cattle there were savage reprisals and massacres for smokey and his loyal teenage follower colt there is the ultimate freedom of fast riding outlaws whether it s stealing mobs of horses or seducing young women hunting down a brutal murderer or escaping from the mounted troopers with their black trackers sex in the billabong with pixie and jilly or riding an outsider in the wyndham cup the colt leads a life of which every young man dreams in the tradition of master story teller ion idriess outlaws of the kimberley underworld is an action packed thriller that makes the american wild west look like a kindergarten author geoff allen spent thirteen years researching these stories while working as a ringer on a cattle stations in the kimberley and northern territory author of the gun ringer ballads of the kimberley and blue bostock he has won many national awards for his bush ballads

this collection of new essays is a groundbreaking examination of divine hiddenness from the perspectives of different faiths
